

4th ePIXfab
**SILICON
PHOTONICS
SUMMER
SCHOOL**

1ST JULY - 5TH JULY, 2019

Scuola Superiore Sant'Anna
Pisa, ITALY

Geared towards industrial and academic participants, this school goes all the way from fundamentals to the latest developments in the science and technology of silicon PIC design, fabrication, assembly and testing for ever-growing applications of silicon photonics.

**SEE BACK FOR
MORE INFO**

KEY FEATURES

- Industrial and academic experts from across the globe delivering tutorials
- Hot topics and emerging developments in a fast-evolving field of silicon photonics
- Interact with top-notch experts in the field of silicon photonics
- Meet budding experts and develop new collaborations

CONFIRMED LECTURERS

Prof. Roel Baets (Ghent University-imec)
Prof. Johan Bauwelinck (Ghent University-imec)
Prof. Camille Sophie Brès (EPFL)
Prof. Ben Eggleton (University of Sydney)
Prof. Laura Lechuga (C2N)
Prof. Juerg Leuthold (ETH)
Prof. Andrea Melloni (Politecnico di Milano)
Prof. Francesco Morichetti (Politecnico di Milano)
Prof. Lorenzo Pavesi (University of Trento)
Prof. Gunther Roelkens (Ghent University-imec)
Prof. Marco Romagnoli (CNIT)
Prof. Marc Sorel (University of Glasgow)
Dr. Bertrand Szlag (CEA-Leti)
Dr. Francesco Testa (Ericsson)
Prof. Laurent Vivien (C2N, CNRS, Univ. Paris-Sud, Univ. Paris Saclay)
Prof. Jeremy Witzens (RWTH Aachen)

PROGRAM COMMITTEE

Prof. Roel Baets (Ghent University)
Prof. Marco Romagnoli (CNIT)
Prof. Giampiero Contestabile (Scuola Superiore Sant'Anna)
Dr. Abdul Rahim (ePIXfab-Ghent University)

ABOUT ePIXfab

ePIXfab is the European Silicon Photonics Alliance, with a mission to promote silicon photonics science, technology, and application through fabless model.
