

Summer School: "EU law on Digital Agriculture"

Edition I - A.Y. 2020/2021

CALL FOR APPLICATIONS

ART. 1 The Summer School

The Dirpolis Institute of the Sant'Anna School of Advanced Studies of Pisa has activated the Summer School "EU law on Digital Agriculture", pursuant to art. 3 of the Charter, from the 5th July to the 9th July 2021, for a total of 40 hours.

The Summer School is part of the three-year Jean Monnet Module SUSTAIN "EU Law on Sustainable and Climate-Resilient Agriculture after the European Green Deal", co-funded under the EU Erasmus+ Programme (620734-EPP-1-2020-1-IT-EPPJMO-MODULE) and coordinated by professor Mariagrazia Alabrese.

The Summer School provides the option to acquire additional ECTS by submitting a final paper that will be evaluated by the Teaching Staff. The final paper may follow the structure of case-studies analysis, critical essay, or review article. The topic of each paper will be discussed with the Teaching Staff. Selected papers, among those successfully evaluated, will be included in the Paper Series of the Jean Monnet Module SUSTAIN. This optional path will require a further effort from interested participants in drafting and submitting the paper in the period from the 9th July 2021 to the 6th of August 2021.

The Summer School will be offered online by the Sant'Anna School of Advanced Studies, due to the safety-concerns related to the COVID-19 pandemic that make non-advisable for the course to be held in person.

The language of instruction is English.

Art. 2 ECTS

2 ECTS (in accordance with the European Credits Transfer and Accumulation System - ECTS) will be awarded upon successful completion of the Summer School, which requires the attendance of at least 80% of classes and passing the final learning test.

The Summer School envisages the acknowledgement of an additional 1 ECTS (European Credit Transfer and Accumulation System) for students who opt to submit also a final paper. Acquiring the additional 1 ECTS is subject to positive evaluation of the paper, other than the foreseen learning test and complying with the attendance obligations envisaged.

ART. 3 Educational Objectives

The Course will provide participants with an advanced understanding of the European legal and policy framework of digital agriculture, within an interdisciplinary learning context.

The law and policy framework for digital agriculture and the technical and economic aspects for implementation of smart agriculture will be explored during the Summer School. The European farming and food system has to deal with a complex set of global and regional challenges, from climate change and environmental degradation to inequality in the supply chain. These issues require profound transformations in the way we produce, market and sell agricultural products. Digital innovation and key enabling technologies will be crucial to support the transformation of agri-food systems. The Summer School will discuss the connections between innovation, sustainability and climate change policy. E-innovation and ICT for sustainable and climate-resilient agriculture will be addressed from an interdisciplinary perspective, including law, economics, computer sciences and agricultural engineering.

The Summer School aims at providing international students and professionals from different backgrounds with the knowledge and interdisciplinary skills necessary to understand the different issues that emerge from the development of the EU regulatory technology framework for building a healthier, fairer and more sustainable and climate-resilient agri-food system.

By the end of summer school, participants will be able to: (a) handle the policy framework on digital agriculture and smart farming in the EU; (b) be aware of the European rules on using and sharing agricultural data; (c) managing the principles of e-business and its practice in the agricultural sector; (d) understand the challenges in establishing a digital traceability of agri-food practices.

ART. 4 Modules

The Summer School will consist of lectures, seminars, discussions, role playing and simulation games. Case studies sessions and Q&A sessions will be planned in order to stimulate the exchanges between trainers and trainees, promoting the creation of a network among all the participants within an interdisciplinary environment.

The classes will address the following key topics:

1. Framing digital agriculture in Europe;
2. Using and sharing agricultural data;
3. E-innovation for sustainable and climate-resilient agriculture;
4. ICT application framework for sustainable and climate-resilient agriculture;
5. Tracking Sustainability in Agriculture.

ART. 5 Recipients

The Course is intended for students coming from different backgrounds, young researchers and professional working in the field of law, social sciences, agricultural engineering, computer science, economics and management, officials working in national, international and European Institutions.

ART. 6 Course Structure

The sessions are spread over one weeks, from Monday to Friday and require participants' full-time commitment. Classes begin at 9.00 AM and end at 7.00 PM, with two hours for lunch.

A final assessment test is foreseen at the end of the Summer School, in the form of a multiple-choice questionnaire.

To acquire the additional 1 ECTS, interested students are required to submit a final paper, with a maximum of 7.000 characters (including footnotes), that discusses a relevant issue (e.g. in the form of case-study analysis), preliminary agreed with the Teaching Staff. The final paper has to be emailed by Friday the 6th of August 2021, 23:59, to aglaw@santannapisa.it.
