

## INTEGRATED PHOTONIC TECHNOLOGIES CENTER

# INPHOTEC

Integrated Photonic Technologies Center

## TECHNICAL PRESENTATION DAY

Polo Tecnologico di Navacchio  
Auditorium Incubatore

**January 21, 2016**

3:00 p.m.

Institute of Communication, Information,  
and Perception Technologies  
with collaboration of CUBIT S.c.a.r.l.

With January 1, 2015 has been completed the operability of the new Center for photonic integrated technologies of Scuola Superiore Sant'Anna in Pisa. Realized with the contribution of the Tuscany Region, with about 700 square meters of clean rooms, INPHOTEC constitutes an infrastructure open to industrial users and not only, of certain importance in a field regarded as pervasive and strategic for the future of technology in many fields.

The day has the intent to put in contact the interested parties with the capabilities of INPHOTEC, describing the technology platforms, the related operational specifications, and how to access to its use.

### PROGRAM

- 15.00 Welcome of President of Polo Tecnologico di Navacchio, A. Di Benedetto
- 15.10 Welcome of President of CUBIT S.c.a.r.l., G. Manara
- 15.20 Welcome and introduction to INPHOTEC, G. Prati
- 15.30 The importance of Integrated photonic and the Pisa design Center, M. Romagnoli
- 16.00 The platforms for fabrication, S. Doneda
- 16.15 The platform for packaging, G. Preve
- 16.30 Question time

### RESERVATIONS

For organizational reasons it is asked to confirm participation by E-mail by **January 18, 2016** at the following address: [alice.dini@sssup.it](mailto:alice.dini@sssup.it) with subject "INPHOTEC Day"  
Attendance is free.
